

What is Visual-drive?

- Smartphone application used with car tag
- Provides driving behavior feedbacks
- Provides driving scores based on 5 factors: harsh acceleration, harsh braking, cornering, speeding and phone use
- Allows drivers to keep track and adjust their driving habits to be a safer driver

How to use?

3 step operation!

- 1) **Install**, Attach the tag anywhere in the vehicle (on a fixed surface) with the double sided tape provided
- 2) **Link**, Install Visual-drive and link phone to tag via Bluetooth
- 3) **Go!** Set it up only once and you are ready to go!

Why Visual-drive?

1
Easy set-up
Setting up the system takes 1 minute!
Anyone can do it!

2
'Install and forget'
Tag and phone linking happens automatically, no need to activate/deactivate the app!

3
Driving diagnosis after each trip
Scores are given after each trip. Get feedback almost instantly!

4
Leaderboard and achievements
Know where you stand and receive badges for good driving!

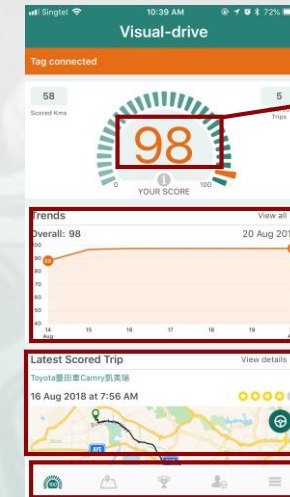

5
Driving advice
You can always improve. Drive safer when you follow advices given by the application!

6
History-based improvements
Bad score? See how to improve from your trip history!

Why Visual-drive?
